SPA EUROPE
Manufacturer of hot tubs and saunas

Outdoor Sauna 300 cm with Terrace and Harvia 9 kW Heater

~~€6,479.55~~ **€7,623.00**

This 300 cm thermowood outdoor sauna comfortably seats 4–6 people and turns your garden into a private home spa. A 50 cm mini terrace at the front gives you a sheltered spot to cool down and relax between sauna sessions.

The front wall is full panoramic glass, filling the cabin with natural light and opening the view to your garden. The integrated Harvia Cilindro PC90, 9 kW electric heater delivers powerful, even heat, and modern LED lighting creates a cosy atmosphere in the evenings.

Built from premium thermowood, this garden sauna is durable, moisture-resistant and designed for year-round use. It is an ideal choice for anyone who wants a backyard sauna for wellness and relaxation with family or friends.

Requirements for Your Outdoor Sauna

Your thermowood sauna needs only a level, stable surface that can carry about 1200 kg, and good access. The driveway to your backyard must allow easy delivery and installation.

Electrical Installation

A 32 A power outlet must be available near the sauna. UAB SPA EUROPE does not carry out electrical installation work from your house to the sauna, but this is an easy task for a qualified local electrician.

Delivery Costs and Time

The production lead time after advance payment is approximately 3 weeks. We deliver this outdoor sauna across Europe. For hard-to-reach locations, additional delivery costs may apply. For a delivery quote to your location, please contact us at info@spaeurope.eu.

FAQ

- How many people fit in this outdoor sauna? It seats 4–6 people.
- Does the sauna need a foundation? No, a level and stable surface that can carry about 1200 kg is enough.
