Manufacturer of hot tubs and saunas

Thermowood Outdoor Sauna CS25T 250 cm with Harvia Cilindro 9 kW Heater

€7,139.00

Discover top-level relaxation with this 250 cm long thermo-wood outdoor sauna, comfortably fitting 4–6 people. The sauna features a 50 cm mini terrace at the front – a perfect spot for a short break between heat sessions.

The integrated Harvia Cilindro PC90, 9 kW electric heater ensures powerful, even heat distribution, while modern LED lighting inside creates a cozy atmosphere, and 2 additional outdoor lights let you enjoy the mini terrace in the evenings.

Made from high-quality thermo-wood, this outdoor sauna is moisture-resistant, durable, and suitable for year-round use. It's an excellent choice for anyone wanting to create a home spa zone and enjoy wellness and relaxation rituals with family or friends.

Key benefits:

- 250 cm long thermo-wood sauna – spacious and comfortable
- Capacity: 4–6 people – ideal for family or friends
- 50 cm mini terrace – for comfortable relaxation before or after the sauna
- Harvia Cilindro PC90, 9 kW heater – fast heating and even heat
- LED lighting inside and outside – cozy evening atmosphere
- Durable and aesthetic thermo-wood

Preparing your site for the outdoor sauna:

For the thermo-wood sauna to stand stably, all you need is a level base and good access – the entrance to your property must be convenient for both delivery and installation.

Electrical installation (applies only to the sauna set with an electric heater):

A 32-amp electrical socket must be prepared near the sauna.

Delivery costs and timeframe:

Production time after the advance payment is approximately 4–10 weeks, depending on production workload. Delivery is included in the price for Lithuania, Poland, Germany, and Austria. If delivery is required to a hard-to-reach location, additional delivery costs may apply. For deliveries to other countries, please contact us at ~~info@spaeurope.eu~~.
