

ELITE - Hot tub with integrated stove

€1,573.00

Due to the shape of the Elite tub, the water capacity is much smaller than a PRIME tub of the same diameter. This allows you to heat the water much faster than if you choose a tub with an external heater.

The Elite bathtub is a beautiful, handmade bathtub that naturally adds coziness, relaxation and an elegant interior detail to your home or farmhouse.

Applications:

All the tub needs is a level base to allow the structure to stand upright. It can be grass, cobblestones or gravel.

There is an electric plug attached to the tub. Wiring with leakage relay and fuses is only for electric heater configuration. If necessary, we can add it to a simple bathtub with water or air massage systems.

UAB SPA EUROPE does not carry out the electrical installation from your house to the hot tub, but it is an easy job for a qualified local electrician.

Delivery costs:

You can collect the hot tub yourself free of charge from the warehouse in the village of Varputėnai.

If delivery is required from our side, ask about the price individually. The delivery price depends on the distance. Hot tub is dispatched from the city of Varputėnai.
